Muhammad Affan

03233129528 | affanmuhammad926@gmail.com | linkedin.com/in/muhammad-affan | Karachi, Pakistan

EDUCATION

Iqra University Karachi, Pakistan Bachelor of Science in Computer Software Engineering Oct 2023 – Oct 2027 • Expected Graduation: October 2027

• Relevant Coursework: Data Structures, Algorithms, Database Systems, Web Development, Software Engineering

EXPERIENCE

Software Development Intern Aug 2024 – Dec 2024 YoungDev Interns Karachi, Pakistan

• Developed and deployed full-stack web applications using the MERN stack (MongoDB, Express.js, React, Node.js), improving application performance by implementing efficient database queries and RESTful APIs
• Collaborated with cross-functional teams in an Agile environment to deliver 5+ coding standards and best practices
• Designed and implemented responsive user interfaces using React and Tailwind CSS, enhancing and desktop platforms
• Optimized application load times by 40% through code refactoring and implementing lazy loading techniques

PROJECTS

Freelancer CRM – Client and Project Management Platform
Tech Stack: React, Vite, Tailwind CSS, React Query, Node.js, Express.js, MongoDB, JWT
Live Demo: freelancer-crm-sand.vercel.app

- Developed a full-stack CRM for freelancers to manage clients, projects, invoices, calendar events and notifications dashboard
- Built secure JWT authentication with protected routes, and a responsive React interface with dark mode
- Implemented role-based team invitations sent by email, where invitees can accept or decline through secure links
- Secured the REST API with Helmet, CORS and rate limiting, and deployed it on Render with MongoDB Atlas and on Vercel

HCM Lite – AI-Assisted Human Capital Management System
Tech Stack: React, Vite, Tailwind CSS, Node.js, Express.js, MongoDB, JWT, Gemini AI
Live Demo: hcm-lite-c376.vercel.app

• Developed an HR management platform with role-based access for Admin, HR and Employee management and payroll
• Built a responsive React dashboard with JWT authentication, protected routes, role-specific menus, charts and dark mode
• Implemented attendance check-in/check-out, leave requests with balance tracking, payroll runs and payslips
• Added an AI assistant for smart leave requests and HR summaries, with all AI-generated output clearly labelled for review

CortexFlow – AI Workflow Automation Platform
Tech Stack: React, Vite, Node.js, Express.js, MongoDB, Redis, BullMQ, Gemini AI
Live Demo: cortex-flow-delta.vercel.app

• Developed an AI-powered workflow automation platform that connects multiple services and business tasks
• Implemented AI agent functionality using Gemini AI to support intelligent task processing and workflow executio
• Built a visual workflow builder with multi-step workflows, webhook triggers, and scheduled automation
• Integrated third-party services including Gmail, Slack, Discord, Google Sheets, Notion, and HubSpot

Bella-Notte – Restaurant Website
Tech Stack: React, Vite, Tailwind CSS
Live Demo: bella-notte-restraunt-website.vercel.app

• Developed a modern restaurant website featuring a visually engaging layout and restaurant-focused content
• Built reusable React components to maintain consistent UI structure and improve code organization
• Used Tailwind CSS for styling and responsive interface development

TECHNICAL SKILLS

Programming Languages: JavaScript, Java, C, SQL, HTML, CSS
Frameworks and Libraries: React, Node.js, Express.js, Tailwind CSS, Bootstrap
Databases: MongoDB, MySQL, SQL Server
Tools and Technologies: Git, GitHub, REST APIs, JWT Authentication, Agile/Scrum
Design: Graphic Design, Banner Design, UI/UX Principles, Responsive Web Design

ACHIEVEMENTS AND LEADERSHIP

- **Academic Excellence:** Maintained strong academic performance while balancing internship and project work
- **Open Source Contribution:** Active contributor to web development communities and technical forums
- **Problem Solving:** Completed 50+ coding challenges on various platforms, demonstrating strong algorithmic thinking
- **Team Collaboration:** Led development teams in multiple university projects, ensuring timely delivery and quality code
